To Whom It May Concern:

It has come to my attention that several delivery companies advertised on your site serving the Sacramento area do not have a State license or local agency permit. Not only is it a violation of the Sacramento City Code for businesses to operate without a valid Business Operating Permit, but without the appropriate government oversight, this activity puts the public at risk when facilities are not inspected and there is no guarantee that cannabis products have been properly tested.

It is possible that you were unaware of this conflict, so I believe that it is in our mutual interest to bring this matter to your attention.

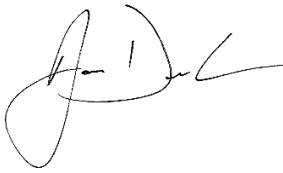

Please be aware that except for the list provided below, all cannabis delivery services that operate within the City of Sacramento are currently unsanctioned both by the City and the State. To this end, I respectfully request that you remove the unpermitted delivery services from your site, and to cease and desist any further association with the promotion of illegal delivery services in Sacramento. Additionally, no other local jurisdiction has approved delivery, except the City of Davis. All delivery companies purporting to operate in Elak Grove, Folsom, Roseville, Carmichael, Fair Oaks, or Citrus Heights are all illegal as well.

We are in the process of issuing local permits for delivery companies, and you are most welcome to verify with us whether a delivery company has obtained the necessary approvals before advertising them on your website. Otherwise, we expect your cooperation in ensuring that only legitimate and properly permitted delivery services are posted on your website.

Should you have any questions, please feel free to contact my office at (916) 808-8955 or send us an email at jdevlin@cityofsacramento.org.
