

California Cannabis Reform Project

April 1st, 2021

Dear Californians:

We write asking for your support and to join our efforts to fix legal cannabis in California. Prop 64, passed by the voters in 2016, has fallen short of the promises and numerous predictions made to get votes. While it was a step forward on some issues, it remains a mixed bag, and without doubt, much more needs to be done to accomplish the goal of normalizing the role of cannabis in our State. Moreover, Prop 64's unintended consequences are harmful and counterproductive to many communities Prop 64 promised to protect, and this requires us to go back and make the much needed changes we outline below.

Critically, the vast majority of Californians wanted and expected Prop 64's passage to create safe, legal and easy access to cannabis in their communities. According to the most recent polling conducted by David Binder Research, voters expectations were and are clear.

"Eight in ten Prop 64 voters expected a YES vote meant cannabis would be sold in the area where they live."

Yet, contrary to the will of the majority of voters statewide who voted for the law (over 56%), Prop 64's passage ushered in cannabis prohibition for over 70% of California's cities and counties.

This matters for many reasons, not least of which is the lack of access to those who need cannabis the most. For example, in January of this year, researchers from UC Davis and Yale University published the following finding in the British Journal of Medicine: "Counties with more cannabis dispensaries show reduced opioid deaths." This confirms similar research showing lower suicides and other harmful outcomes from both legal and illicit substances when cannabis is a legally available substitute.

"79%" believe legal cannabis "creates safer options for people to purchase cannabis products."

Also, what then Lt. Governor Gavin Newsom promised in 2016, namely, to reduce the size of the black market, has not come to pass. He stated then:

"A successful marijuana framework" will "reduce the size of the black market".

Even California's own Cannabis Advisory Committee warned Gov. Gavin Newsom and California legislators:

"Despite the state's committed efforts to bring cannabis businesses fully into the regulated commercial market," the report said, "as much as 80% of the cannabis market in California remains illicit."

The Illicit Market is stronger than ever due to the badly designed law.

Prop. 64's shortfalls were predictable. We legalized cannabis in a limited fashion, but that effort mainly helped more prosperous residents while keeping illicit cannabis as the only option for the middle class and poorer consumers.

California Cannabis Reform Project

Instead of an equitable system that benefits the state, and all of its communities and all of our consumers, Prop. 64 instead balkanized access, created over-taxation, overregulation and gave elected locals, not local voters, the ability to say, “Not in my back yard.” That needs to change so that every consumer, every entrepreneur and every community can access legal, safe cannabis, and the positive jobs and taxes it creates.

It is time for Californians to make California’s legal cannabis system work properly and we have the solution. Attached is an initial draft of a voter proposition we believe will solve the problems created by Prop. 64.

The proposition would:

- Remove local control over cannabis licenses,
- Treat cannabis as an agricultural product,
- Eliminate cultivation taxes,
- Reduce the cannabis excise tax to 5% which consumers must pay,
- Give local governments 20% of all collected excise tax revenue,
- Eliminate additional local cannabis taxes, and
- Change all cannabis tax collection from the distributor to the retailer.

While fixing prop 64’s inefficient regulatory and tax structure are paramount, the initiative also identifies a different solution to how we spend the tax money cannabis taxes generate. We are inviting the broader community to participate in deciding the details of how we spend those precious tax dollars. Our proposed initiative starts by allocating cannabis tax revenues as follows:

- 50% allocated to pre-K development, secondary education, and cannabis research,
- 25% allocated to the environment to include clean water funding, and
- 25% allocated to healthcare and jobs to include social equity funding.

Please note, all highlighted text in the draft initiative needs further clarification that will come from further input from the community.

But, the community input doesn’t stop at spending. We invite all stakeholders to read the initiative and get involved as we shape a better law that even more Californians will support.

I look forward to speaking to all of you in the near future about your interest in helping push solutions that fit all California’s needs.

Sincerely,

Sean Kiernan
Executive Director

Section 1. Title.

This Measure shall be known as the Cannabis Taxation and Social Equity Reform Act

Section 2. Findings and Declarations.

The people of California find and declare the following:

1.

Section 3. Intent

1. In 2016, California voters approved Proposition 64, the Control, Regulate and Tax Adult Use of Marijuana Act (AUMA). In its statement of purpose and intent, AUMA calls for regulating marijuana in a way to “prevent illegal production or distribution of marijuana,” “reduce barriers to entry into the legal, regulated market,” and “tax the growth and sale of marijuana in a way that drives out the illicit market for marijuana and discourages use by minors and abuse.”

2. In 2017, the Legislature and the Governor passed Senate Bill 94 to merge the AUMA regulatory system with the state’s medical marijuana regulatory system known as the Medical Cannabis Regulation and Safety Act. Currently, taxes on legal cannabis products include a sales tax, a 15-percent excise tax, and a cultivation tax of \$9.25 per ounce of flowers or \$2.75 per ounce of leaves. The cumulative tax rate imposed by existing law is substantial and undermines the legal regulatory system if high taxes cause prices to far exceed those which are found on the illicit market.

3. This proposition seeks to eliminate the cultivation tax, reduces the rate of the excise tax, and limits local control intended to eliminate or prohibit cannabis businesses sales that are otherwise legal in the State, in order to reduce the cost of cannabis to consumers, increase consumer access to legal cannabis, reduce and eliminate illicit or other non-legal cannabis businesses and sales, and ensure uniformity in the licensing, regulation, taxation and availability of legal cannabis businesses through the State.

4. The primary goals of this proposition are to reduce the size of the state’s illicit cannabis market and to stimulate sales in the licensed, regulated, and taxed cannabis market. By reducing the tax burden on licensees and limiting local control, the act will encourage customers to continue to purchase cannabis and cannabis

products from licensed businesses and will help ensure that the regulated cannabis market survives and thrives.

(2) For purposes of this section, "insufficient number or concentration" means the number of licenses issued for retail cannabis commercial activity in the jurisdiction is less than the figure derived under subdivision (c)(3) of this section. ~~The ratio of retail licenses, microbusiness licenses, or licenses under Section 26070.5 to the population in the census tract, census division, or jurisdiction exceeds that allowable by local ordinance adopted under Section 26200.~~

If the local jurisdiction is a county, the number of on-sale general licenses for alcoholic beverages shall be determined by adding all of the currently active licenses issued in the unincorporated regions of the county that are of a license type listed in subclause (II).

(II) For purposes of subclause (I), the following on-sale general license types shall be counted: Types 47, 47D, 48, 48D, 57, 57D, 68, 70, 71, 71D, 75, 75D, 78, and 78D.

(ii) The number determined in clause (i) shall be divided by six and rounded up to the nearest whole number using generally accepted mathematical rounding practices.

(iii) If the number of local licenses for retail commercial cannabis determined in clause (ii) would result in a ratio equal to, or fewer than, one local license for retail cannabis commercial activity for every 10,000 15,000 residents of the local jurisdiction, the number determined in clause (ii) shall be the minimum number of licenses for the jurisdiction.

Section 26051.5 is amended to read:

- (B) For the purposes of this paragraph, "employee" does not include a supervisor.
- (C) For the purposes of this paragraph, "supervisor" means an individual having authority, in the interest of the applicant, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or responsibility to direct them or to adjust their grievances, or effectively to recommend such action, if, in connection with the foregoing, the exercise of that authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

(ed) An applicant may voluntarily provide proof of a commercial license, permit, or other authorization under local law from the local jurisdiction verifying that the applicant is in compliance with the local jurisdiction. An applicant that voluntarily submits a valid, unexpired commercial license, permit, or other authorization from the local jurisdiction shall be presumed to be in compliance with all local ordinances unless the licensing authority is notified otherwise by the local jurisdiction. ~~The licensing authority shall notify the contact person for the local jurisdiction of any applicant that voluntarily submits a valid, unexpired license, permit, or other authorization from the local jurisdiction.~~

~~(f) (1) A local jurisdiction shall provide to the bureau a copy of any ordinance or regulation related to commercial cannabis activity and the name and contact information for the person who will serve as the contact for state licensing authorities regarding commercial cannabis activity within the jurisdiction. If the licensing authority does not take action against the licensee before the time of the renewal of the license, the license shall not be renewed until and unless the local jurisdiction notifies the licensing authority that the licensee is once again in compliance with local ordinances.~~

~~(F) A presumption by a licensing authority pursuant to this paragraph that an applicant has complied with all local ordinances and regulations adopted in accordance with Section 26200 shall not prevent, impair, or preempt the local government from enforcing all applicable local ordinances or regulations against the applicant, nor shall the presumption confer any right, vested or otherwise, upon the applicant to commence or continue operating in any local jurisdiction except in accordance with all local ordinances or regulations.~~

~~(3) For purposes of this section, "notification" includes written notification or access by a licensing authority to a local jurisdiction's registry, database, or other platform designated by a local jurisdiction, containing information specified by the licensing authority, on applicants to determine local compliance.~~

~~(h) Without limiting any other statutory exemption or categorical exemption, Division 13 (commencing with Section 21000) of the Public Resources Code does not apply to the adoption of an ordinance, rule, or regulation by a local jurisdiction that requires discretionary review and approval of permits, licenses, or other authorizations to engage in commercial cannabis activity. To qualify for this exemption, the discretionary review in any such law, ordinance, rule, or regulation shall include any applicable environmental review pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code. In determining which offenses are substantially related to the qualifications, functions, or duties of the

(F) Provided further, if the offense for which the applicant was convicted would not be a crime at the time the application is made, or if the conviction has been resentenced, rehabilitated or dismissed the conviction shall not be the basis for denial or limitation of the license, pursuant to Section 26059.

(5) Except as provided in subparagraphs (D) and (E) of paragraph (4) and notwithstanding Chapter 2 (commencing with Section 480) of Division 1.5, a prior conviction, where the sentence, including any term of probation, incarceration, or supervised release, is completed, for possession, possession for sale, sale, manufacture, transportation, or cultivation of a controlled substance is not considered substantially related, and shall not be the sole ground for denial of a license. Conviction for any controlled substance felony subsequent to licensure shall be grounds for revocation of a license or denial of the renewal of a license.

(6) The applicant, or any of its officers, directors, or owners, has been subject to fines, penalties, or otherwise been sanctioned for cultivation or production of a controlled substance on public or private lands pursuant to Section 12025 or 12025.1 of the Fish and Game Code.

(7) The applicant, or any of its officers, directors, or owners, has been sanctioned by a licensing authority or a city, county, or city and county for unauthorized commercial cannabis activities, has had a license suspended or revoked under this division in the three years immediately preceding the date the application is filed with the licensing authority.
