# The Nose Knows: Aroma, but Not THC Mediates the Subjective Effects of Smoked and Vaporized Cannabis Flower

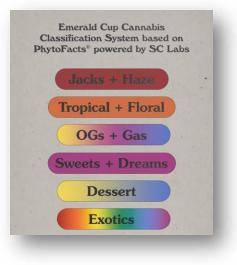

Plumb et al. 2022 – In Press

• Our analysis revealed that contrary to both market dynamics and consumer perception, neither THC potency nor THC dose had an impact on subjective appeal. In the context of naturalistic recreational enjoyment, some hemp-like chemovars and Type II chemovars were just as appealing as chemovars with 20% THC or more.

#### The Largest Cannabis Competitions are Depending on Reliable Laboratories and New Ways to Classify and Visualize Aromas

# Newest Innovation in Laboratory Reporting: Chemometrics
